This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

State of Iowa

Iowa Library Commission
Des Moines
1904

IOWA LIBRARY COMMISSION.

OBJECT: To aid in the establishment and development of free and other public libraries in the State of Iowa.

MEMBERS EX-OFFICIIS.

JOHNSON BRIGHAM, State Librarian, *President.*
GEORGE E. MACLEAN, President State University.
JOHN F. RIGGS, State Superintendent Public Instruction.

MEMBERS APPOINTED.

MRS. HORACE M. TOWNER, Corning.
MRS. DAVID W. NORRIS, Grinnell.
MRS. HENRY J. HOWE, Marshalltown.
CAPT. W. H. JOHNSTON, Ft. Dodge.

MISS ALICE S. TYLER, *Secretary.*

TRAVELING LIBRARY DEPARTMENT.

MISS MARGARET W. BROWN, *Librarian.*

OFFICE: State House, Des Moines.

THE FREE TRAVELING LIBRARY under the direction of the Iowa Library Commission, now consists of 12,700 volumes. Of these, 5,900 volumes are in fixed groups of fifty volumes each (some of these being duplicated) and 6,800 volumes in the General Loan collection.

Fixed Groups. This printed List includes only the numbered libraries, in fixed groups, and is issued for the use of the Traveling Library centers. These libraries consist of miscellaneous collections for general reading. Selection from this List should be made of the Library desired, indicating several numbers in order of preference, so that if the first choice is not available, another may be sent promptly.

A few juvenile libraries are included in this List.

New libraries will be added each year, of the best recent books for general reading, and will be supplementary to this List.

Subject Libraries are not listed herein, as they do not remain in fixed groups, but are selected from the General Loan collection, which is arranged by the Decimal Classification. When requests for books on subjects of study are received, the books are selected from this general collection, the number sent varying according to the material available; on their return these books are distributed on the shelves to go out again in other groups.

Libraries for Young People. The demand for books for young people, adapted to school grades, especially in rural schools, made it necessary that a collection of books for that purpose should be available through the Traveling Library, and use has been made of the "List of Library Books for School Districts of Iowa" issued by the State Board of Educational Examiners. Selection of the books desired is made from that List, as the books are not in fixed groups.

Information as to how books may be obtained and rules governing their loan, is to be found in Iowa Library Commission Leaflet No. 5, on the "Traveling Library of Iowa."
